

## **PRESS RELEASE**

Corporate Limousine Service would like to welcome all A1 Airport Livery customers! We trust that you will experience the same level of service as you have grown to expect from A1 Airport Livery! Please review our website for some exciting features that you will now have access to.

Corporate Limousine is a leading Boston Livery service with over 25 years of transportation experience offering: airport service between all regional airports, corporate service, weddings, special occasions and more. Utilizing the latest software technology in “real-time” airline flight tracking, and reservations including email reservation confirmation; 24-hour radio dispatching and worldwide reservations, Corporate Limousine has been a leader in transportation services in New England for over a quarter century.

With the acquisition of A1, Corporate Limousine now has a larger footprint in Eastern Mass including Boston and surrounding areas from Cape Ann to Cape Cod and beyond. This will allow for more flexibility and efficiency in servicing Massachusetts and the greater Boston area.

The combined company will feature a wide variety of new vehicles featuring Lincoln Town Cars, Chevy Suburban SUV's, Stretch Limousines, and Executive 14 person Vans, all strategically located in the eastern Massachusetts area. Both Corporate and A1 chauffeurs are carefully selected based on professionalism, experience, and customer service skills, and exhibit the highest standards in the industry.

Corporate Limousine Owners George and Curt Colarullo possess over 35-years combined experience in the Boston transportation market and are excited about the recent acquisition. They issued the following statement, “A1 is one of the most professional and well run companies we have looked at as an acquisition candidate. With this acquisition, we are better equipped to cover a larger area in Eastern Mass while not incurring additional costs, allowing our rates to remain competitive. With our combined excellence in customer service and reliability we are very excited about this opportunity to provide an excellent service for our customers for the next 25 years.”
